

Norbro 33 Series 180° Actuator

Experience In Motion

Norbros Series 33 pneumatic 180° actuator is derived from the world-renowned 40R actuator. In the Series 33, the support rod guided pistons are fitted with steel racks to drive the 180° pinion.

The 33 Series is ideal for driving any 180° valve including Flowserve Worcesters' 14, 18 and 19 Series. It can also be used for any other 180° driven device.

Available in Double Acting and Spring Return versions, standard or reverse acting operation. Reduced spring options for balancing of air pressure/torque requirements can be supplied.

0°-180°, 0°-90°-180° positional control can be achieved with a positioner, or a top mounted switchbox used with a 3 position solenoid. Bespoke control packages are available on request through the Technical Sales team.

The envelope dimensions are identical to the 40R Norbro actuator range including its ISO 5211 mounting interface, however please note, this series is only available in male drive. (Note size 45 and 50 have the Norbro mounting interface, not ISO 5211).

All other details are as the 40R, including Namur (VDE / VDI 3845) solenoid valve connection and top mounting pattern for switchbox / positioners.

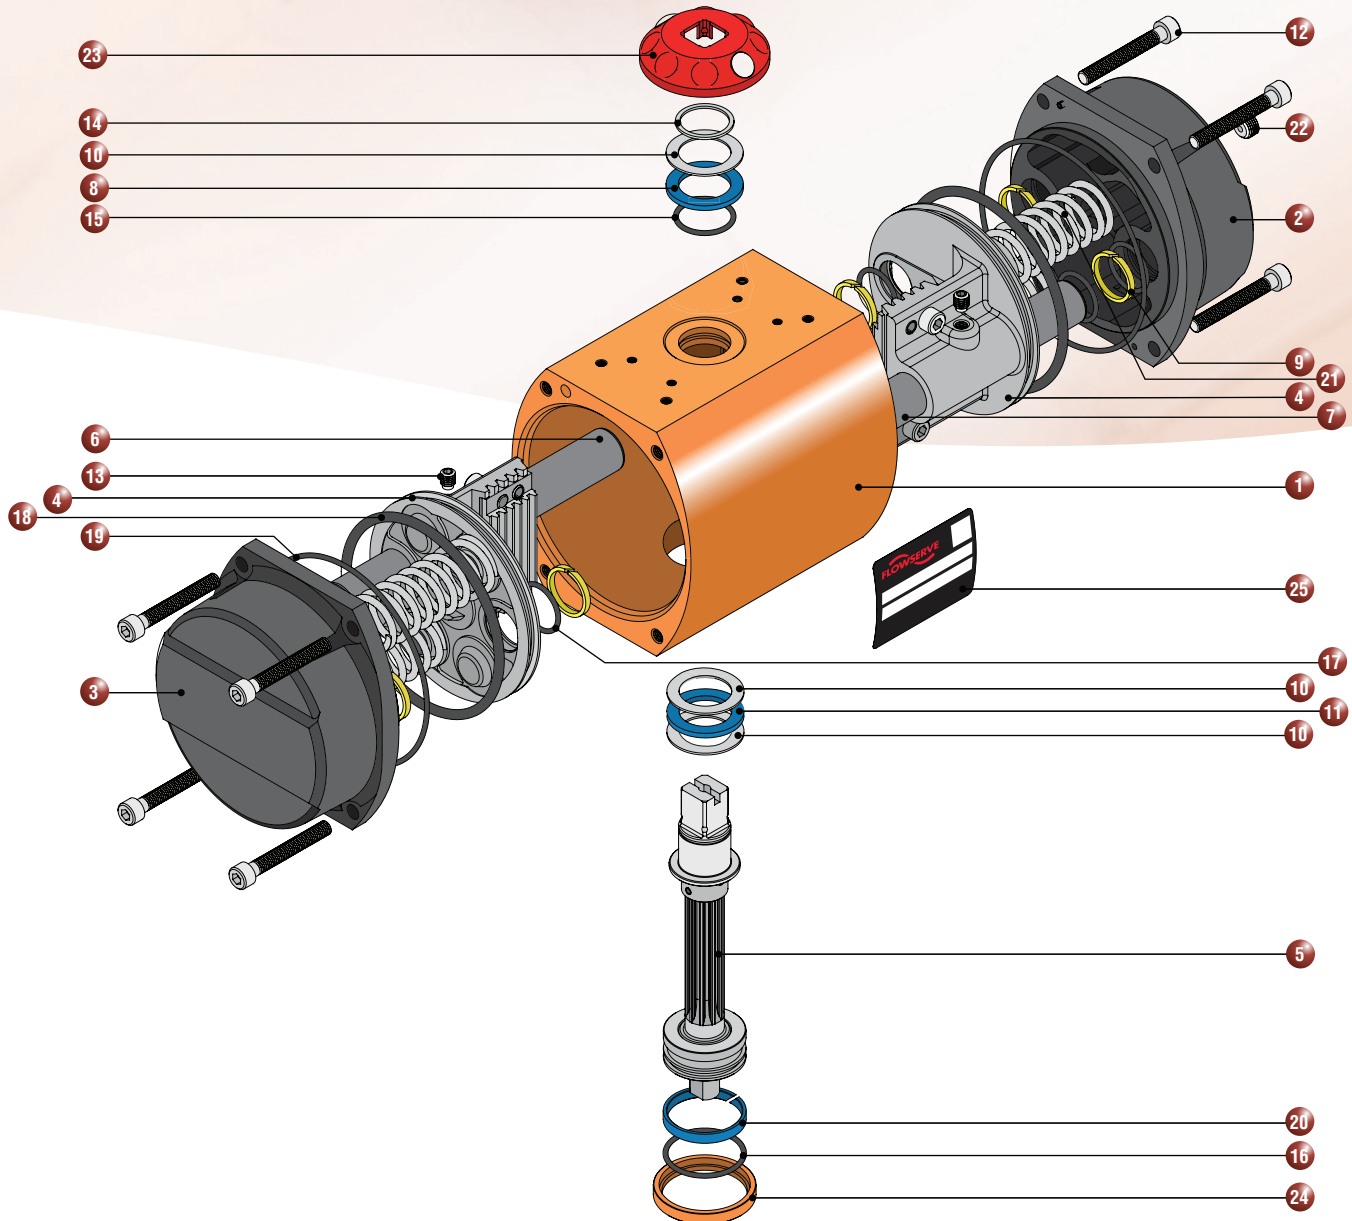

The Series 33 uses a standard 40R repair kit.

Output drive dimensions (mm) For all other dimensions, please refer to Norbro 40R Actuator Catalogue.

Actuator Size	ISO Size	A	B	C	D	E	F	Ø G	H A/F	J SQ

Parts List / Materials Specification

No.	Part	Finish	No.	Part	Finish
1	Body	Aluminium/Anodised	14	Spiral Retaining Ring	Stainless Steel/Natural
2	Inlet End Cap	Aluminium/Anodised	15	O-Ring	Nitrile (Standard Temperature)
3	Switch End cap	Aluminium/Anodised	16	O-Ring	Nitrile (Standard Temperature)
4	Piston	Aluminium/Natural	17	O-Ring	Nitrile (Standard Temperature)
5	Pinion Assembly	Carbon Steel/Gas Nitride	18	O-Ring	Nitrile (Standard Temperature)
6	Support Rod (inlet)	Stainless Steel/Natural	19	O-Ring	Nitrile (Standard Temperature)
7	Support Rod (Blank)	Stainless Steel/Natural	20	Bottom Bearing	Acetal Resin
8	Top Bearing	Acetal Resin	21	Spring*	Chrome Silicone Steel/Corrosion Resistant Coated
9	Support Rod Bearing	Acetal Resin	22	Vent Plug*	Acetal Resin
10	Thrust Washer	Stainless Steel/Natural	23	Position Indicator	Polyethelene
11	Thrust Bearing	Acetal Resin	24	ISO Location Ring	Aluminium/Anodised
12	End Cap Screw	Stainless Steel/Natural	25	Label	Acrylic Polyester
13	Grub Screw	Carbon Steel/Plated			

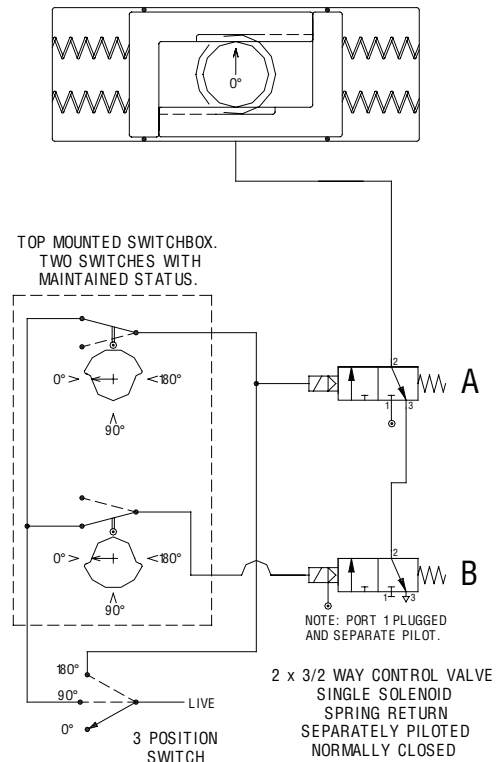

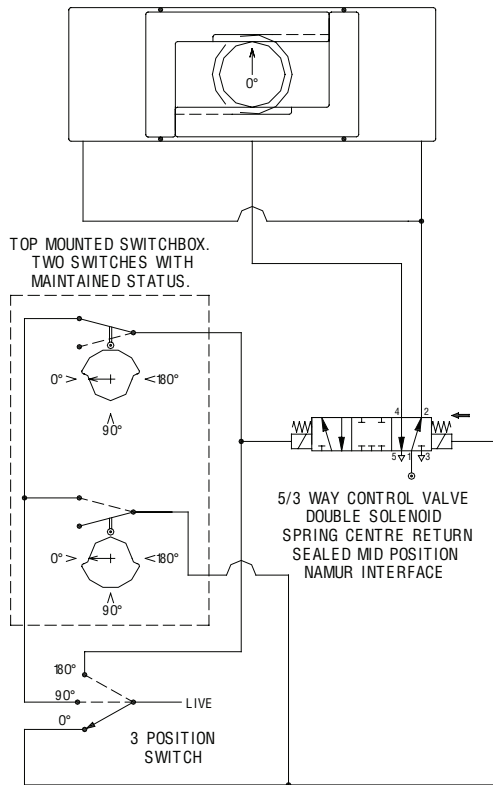

*Spring Return Version Only
